fe 12-M&W6w BUFFALO LITHIA WATER. THE BUFFALO LITHIA WATERS

IN THE PECULIAR DISEASES OF WOMEN THE TESTIMONY OF DR. T. J. WILLIAMSON OF CINCINNATI, OHIO,

WHOSE SPECIALTY IS DISEASES OF WOMEN.

NO. 137 PLUM STREET, CINCINNATI, OHIO, November 21, 1877. SMr. Thomas F. Goode: Mr. Thomas F. Goode:

Dear Sir.—For the past year I have prescribed the RUFFALO LITHIA WATERS (Spring No. 2) freely in my practice in this city, and with results so uniformly beneficial and gratifying, and at times so remarkable, that it is my desire and purpose to aid as far as I can in the interest of afflicted humanity in making known their extraordinary virtues, and hence, though entire strangers. I address you, as the proprietor, this communication. These waters unquestionably possess wonderful powers as a curative agent in many forms of chronic disease. It is, however, their ALMOST SPECIFIC power in the peculiar diseases of women that gives to them their great suppersionally over all of the more noted mineral waters, both of this country and Europe.

more noted mineral waters, both of this country and Europe.

Some of the most distressing and unmanageable cases of uterine difficulty which have ever come under my observation have been entirely relieved by the persistent use of these waters, with but little, and its some instances without any, aid from medicine. To make mention of a single case: Mrs. ——, of this city, severely afflicted, was for four months under the treatment of some of the most emineratof the medical faculty of Philadelphia, deriving no material benefit from treatment. She returned to this city and was put upon the LiTHIA WATERS, the use of which for three months resulted in her entire restoration to heath.

I have found them equally potent in dismenor-rheea and menor-hagia.

I would especially mention that I have found this rhica and menorrhagia.

I would especially mention that I have found this water a sovereign agent in the treatment of persons convalescing from scarlet-fever, preventing the distressing and often dangerous dropsical condition to which this disease leaves the system exposed in the damp atmosphere of this city during the fall and

inter months. In conclusion I would add that my views here given in regard to these waters are the result of oft-re-peated and thorough praceical tests. Very respectfully. T. J. WILLIAMSON, M. D. These waters, in cases of one dozen half-gallon bottles, can be had ATTHE SPRINGS at \$5 per case in advance: in Richmond, of PURCELL, LADD & CO. at \$5.50 per case. THOMAS F. GOODE, de 12-W&Meow2m Proprietor.
